

## **PE Funding**

The government's Sport Premium Funding will be continuing this academic year. The funding has once again been ring fenced for physical education in order to create a sporting legacy within the school - so that when the funding ceases, the school is left with a lasting impact.

### **Our Intended Outcomes:**

To increase and improve the quality and breadth of PE and sport provision.

To increase participation in PE and sport so that all pupils develop healthy lifestyles and reach the performance levels they are capable of.

To promote positive attitudes towards healthy and active lifestyles.

To increase the PE skills of all pupils to achieve secondary readiness.

To create a detailed PE Development plan with short and long term targets that enables all pupils to progress and achieve.

To increase the opportunities of pupils during lunch and play and after school.

As well as this we have also updated some of our sports equipment.

### **Our PE Grant this year is £8700.**

#### **We have so far invested in:**

##### **Future Stars** (in conjunction with Bristol Rugby)

Kingshill Primary School will be using some of its funding to enter a second year of 'The Legacy Project', in partnership with Future Stars Coaching & Bristol Rugby Community Foundation.

This year's Legacy Project has been developed further to offer stronger links to other schools in the area. Though the project, we can easily connect to other primary schools to share ideas about PE and to engage in tournaments and competitions.

Fundamentally, The Legacy Project will be working in a similar way to last year, with two fully qualified sports coaches working along side our teachers during selected PE lessons. However, this year the PE sessions that the coaches will be offering to the teachers and children have been completely rebuilt. The lesson plan structures have been altered to offer more detailed learning outcomes - meaning every pupil and teacher will have a better understanding of what they are learning.

In addition to the PE Lessons, our school will be working with the project to offer a wide variety of after school and lunch time sports clubs throughout the year.

Future Stars Clubs aren't just coaching sessions: Through 'club links' (local rugby, netball, football, gymnastics clubs, etc) children can be offered an accessible pathway in order to develop outside of the sessions. Participants are also offered opportunities to participate in professional match day experiences in and around the South West.

#### **PE Association**

We fund our membership of the PE Association which provides opportunities for children to take part in different sports at competition level and to try out new sports in school. It also provides professional development for staff.

#### **Swimming**

Years 3 and 4 go swimming Sep-Dec. We pay for pool hire, teaching and transport.

Super Sports Club

We paid for supply costs for training to engage the least active pupils in sports activities, for example 'Change4Life' clubs

**Future Spending 2014-15**

- PE equipment audit and update of resources
- Pay for transport, pool hire and instruction to provide additional swimming lessons for those pupils unable to swim by the end of Year 6
- Provide pupils who are gifted and talented in sport with support.

**The impact of this funding will be measured through:**

- Pupil perception questionnaires measuring the interest of children in different areas of the PE curriculum
- Direct feedback by teachers on the quality of support offered by the specialist coaches
- Feedback from the specialist teachers to the Headteacher on the level of engagement by teachers
- The increase in the number of children engaging in inter school sporting activities
- The number of children attending a sports club either in school or outside.
